*On behalf of Human Resources*

**NOTE: The following notification is required under Federal Law and is provided to you as information only. No action is required.**

The Drug Free Schools and Communities Act of 1989 (DFSCA) requires College of Marin, as a recipient of Federal funds, to certify that it has adopted and implemented a program to prevent the unlawful possession, use or distribution of illicit drugs and alcohol by students and employees both on Marin Community College District (the District) premises and as a part of any College activities.

The District prohibits the unlawful possession, use, sale, or distribution of illicit drugs and alcohol by students and employees on the District's property or as part of any of the District's activities, including but not limited to field trips, activities or workshops.

It is the policy of the District to maintain a drug and alcohol-free campus for students, faculty, and staff. The College has established and will maintain a drug and alcohol-free awareness program. The program has and will continue to include the distribution of information on the dangers of drug and alcohol abuse, and referral resources for counseling -and rehabilitation dealing with drug abuse problems.

The unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance or alcohol is prohibited on any of the College of Marin campuses. The term "controlled substance" is defined in the Health and Safety Code 11007. Students who violate these prohibitions will be subject to disciplinary action up to suspension from the College, in addition to criminal prosecution.

For more information on the Drug and Alcohol Prevention Program (DAAPP) visit <http://policies.marin.edu/daapp-employees>
