Lincoln Investment and your Advisor can purchase, hold, and recommend mutual fund investments in share classes in your advisory accounts that are not the lowest cost share class. You should not assume that you are invested in the lowest cost share class, and the share class of a mutual fund offered by Lincoln Investment can have higher expenses and therefore lower returns, which could impact performance over time, than other share classes of that mutual fund for which you are eligible or that may otherwise be available to you if you invested in the mutual fund through a third party or through the mutual fund directly. Other financial services firms may offer the same mutual fund at a lower overall cost to the investor than is available through your account. Financial professionals please consult the 'Solutions Fund Availability Tool' for total fund offerings.

Advisory Services and Securities offered through Lincoln Investment, Registered Investment Adviser, Broker-Dealer Member FINRA/SIPC. Not all funds within a fund company may be available to you. Fund availability is subject to prospectus and fund family limitations, such as minimum account size and purchase restrictions to new investors as well as short-term trading and low balance fees. Please check the fund prospectus before you invest. After reading the prospectus/summary prospectus, carefully consider the investment objectives, charges, expenses, and risks of the investment company before investing.
